

OCIGO EUROPE

A NEW GENERATION OF ALCOHOL BREATHALYZER

A connected breathalyzer, using evidential breathalyzers technology, empowering you to make smarter decisions.

Not sure if you can drive? To remove any doubts, just start your OCIGO, blow steadily for 5 seconds, and get your results directly on the device and/or on your phone.

The app shows you when your alcohol concentration level will return below the legal limit and back to 0, **so you'll know for sure when you can safely drive again.**

Specialist in human breath analysis by infrared spectroscopy.

Innovative company
Using its expertise and mastery of the infrared spectroscopy technology to preserve lives by enhancing people's safety and health.

OCIGO EUROPE

A NEW GENERATION OF ALCOHOL BREATHALYZER

Driving accross Europe has never been safer, thanks to OCIGO Europe's NEW FEATURES!

Alcohol abuse is dangerous for health, consume with moderation. Non-contractual photos. Do not throw on the public highway.

OCIGO EUROPE NEW FEATURES!

5 Languages to choose from

French, English, German, Italian and Spanish.

14 Units of Measurement to suit your personal needs and preferences.

3 Driver Categories for a more personalized and precise experience

Choose from novice, experienced or professional driver categories and the legal limit will automatically adjust to your selected category.

False Positive Detection

OCIGO alerts false positive results by detecting residual alcohol in the mouth as opposed to the alcohol present in the respiratory tracks*

OCIGO adapts to 30 European Countries' Legislation

Wherever you are in Europe**, you can set the legal limit of the country you reside in or are visiting.

Photo Authentication: so, you can share your results if you choose to. It's also a great feature for parents who want to ensure the safety of their children.

EXISTING FEATURES

Law enforcement miniaturized technology

Connected handheld breathalyzer using evidential testing devices' technology.

Integrated estimation

Know when your BAC will return below the legal limit and to 0.

Stand-alone and Connected modes

Stand-alone with results shown on the device and dedicated app, for accurate results and estimation to know when your BAC will return below the legal limit and back to 0.

Easy use and maintenance

Get accurate and reliable results in seconds and nearly zero measurement drift over OCIGO's lifetime.

*following OIML R 126:2012 Annex A.1 standard

OCIGO EUROPE
