

OCIGO

A NEW GENERATION OF ALCOHOL BREATHALYZER

A connected breathalyzer, using evidential breathalyzers technology, to empower you to make smarter decisions.

Start, blow steadily for 5 seconds, and have the result directly on the device.

The app allows accurate measurement and show you when your alcohol concentration level will return below the legal limit and to 0.00%.

Specialist in human breath analysis by infrared spectroscopy.

Innovative company

Using its expertise and mastery of the infrared spectroscopy technology to preserve lives by enhancing people's safety and health.

Patented advanced technology

Is at the heart of its innovation and relentless pursuit of excellence, offering consumers and professionals alike, affordable solutions and products that until now, were not accessible to them.

From macro to micro

Our technological feat is unrivaled on the market today. Beyond OCIGO, Olythe has opened the door to many possibilities, opportunities and applications with its breakthrough miniaturized technology.
